

# A Renter's Guide to HOLISTIC ELECTRIFICATION

*Regardless of your living situation, here are steps to lower your energy bills and have a safer home.*

- Start small by using electric cooking appliances** (electric kettle, crock pot, toaster oven) **instead of gas.**
- Try out a countertop induction burner by borrowing one from your local library or neighborhood site.** Sign up at [ebce.org/induction/](http://ebce.org/induction/)
- Explore renter-specific incentives and rebates for electrifying** at [switchison.org](http://switchison.org)
- If you have a gas stove, use your oven hood any time you turn it on.**
- Use LED light bulbs and reduce unnecessary energy use.**
- Use a clothes rack or clothesline for drying.**
- Share electrification resources with your landlord:**  
Single-family homes: Switch is On  
Apartment buildings: Bay Area Multifamily Building Enhancements (BAMBE)
