ESTABLISHING THE COUNCIL DISTRICTS
OF THE CITY OF OAKLAND

WHEREAS, Section 203 of the Charter requires the City Council to redefine the Council Districts of the City of Oakland in 1993 and every ten years thereafter; and

WHEREAS, the City Council has considered the matter of redefining the Council districts, and has considered the population of the City of Oakland as reflected in the 1990 Federal Census, and hereby finds that changes in population require that the districts be redefined; and

WHEREAS, the City held three community meetings on April 29, May 3, and May 10, 1993 to explain the redistricting process and provide members of the public with information to assist them in developing redistricting alternatives; and

WHEREAS, seven individuals and/or groups submitted redistricting alternatives by the deadline of May 17, 1993; and,

WHEREAS, on May 19, 1993 a community meeting was held to allow the authors of the seven redistricting alternatives to present their maps to interested members of the community; and,

WHEREAS, on June 15, 1993, the City Council held a public meeting to review three of the submitted alternatives; and,

WHEREAS, on June 29, 1993, the City Council reviewed three additional alternatives, two of which were based on the alternatives reviewed on June 15, 1993 and one based on an alternative submitted by an individual councilmember; and,

WHEREAS, on July 13, 1993, the City Council held a public meeting to review an alternative based on one of the alternatives reviewed on June 29, 1993; and,

WHEREAS, on July 20, 1993, the City Council held a public meeting to review two additional alternatives based on the one reviewed on July 13, 1993, and selected the one referred to as "Alternative 8" for adoption; and

WHEREAS, the City Council finds that the Council districts as hereinafter set forth are composed of contiguous territory and are as equal as practicable in population as shown by the 1990 Federal Census, are as geographically compact as practicable, and take into consideration the topography, geography, cohesiveness, contiguity, integrity, compactness of territory, and community of interests of the districts; now, therefore,
